## Year 4 Geography trip to Gatton Park

On Friday 6th November 2015 Year 4 set off to Gatton park, as we departed enthusiastically from school the rain started ! But that was not going to dampen Year 4s excitement for a fun filled and busy day learning about energy and climate change.

Once we arrived at Gatton Park the teacher in charge set about informing the children of their tasks. The children were enthusiastic and keen to learn and found the first activity of making a light bulb light up by using the fuel of a lemon very exciting! Next we were outside trying to dodge the heavy rain and were embarking on a great team building scavenger hunt where even the staff had to attempt to run around the beautiful grounds collecting various resources which enabled the children to learn about several forms of renewable energy sources. The afternoons activities included a range of tasks inside and outside the classroom looking at the consequences of wasting resources, along with the implications of climate change.

Thank you to Gatton Park for providing a great day, to all the children in Year 4, who were so well behaved, and to all the staff that joined us on the trip!
